

Open-rank faculty position in Atmospheric & Oceanic Observations, University of Colorado, Boulder

The Department of Atmospheric and Oceanic Sciences (ATOC) at the University of Colorado, Boulder, invites applications for an open-rank faculty position for a person who plays a prominent role in the field of atmosphere, ocean, or cryosphere observations. Areas of interest include airborne, satellite and ground-based remote sensing, in situ observations, and land- and ocean-networks. The work should have broad applications to climate and weather, and should complement existing strengths within ATOC. This person should have a PhD in Atmospheric Science, Oceanography, or a related field, with a record of research and teaching excellence that meets the standards expected for appointment at an R1 doctoral university. Review of applications will begin 5 January 2017, and will continue until the position is filled. Informal inquiries can be made to Peter Pilewski at peter.pilewski@lasp.colorado.edu.

The University of Colorado is an Equal Opportunity/Affirmative Action employer. Applications are accepted electronically at <https://cu.taleo.net/careersection/2/jobdetail.ftl?job=06673&lan>.
