HYDROLOGY OF HUMID TROPICAL REGIONS

- Aspects of tropical cyclones
- Hydrological effects of agriculture and forestry practice

Edited by Reiner Keller

This symposium was organized by the IAHS International Commission on Surface Water and cosponsored by UNESCO

IAHS Publication No. 140
Published by the International Association of Hydrological Sciences 1983.

The selection and presentation of material and the opinions expressed in this publication are the responsibility of the authors concerned and do not necessarily reflect the views of the publishers.

The Editor would like to acknowledge the great assistance he received from the many people who helped in the preparation and publication of this volume. Lekan Oyebande (University of Lagos, Nigeria), Co-Convenor of the symposium, generously assisted with the organization of the symposium. The panel of the rapporteurs of IHP Project A.1.10, on which L.S.Lau and J.H.Chang (University of Hawaii), and the Editor represented IAHS/ICSW, contributed valuable initiatives to the planning of the programme. J.C.Rodda, Secretary General of IAHS, provided effective assistance. Penny Kisby (Assistant Editor, IAHS) gave invaluable help at all stages of production. Wendy Payton typed the majority of papers in this volume with her usual speed, accuracy, and good sense. I would like to express my gratitude to J.A.Rodier for both correcting and proof-reading the French papers and abstracts. I am also grateful to my assistants Sigrid Willemann and Wolfgang Fleischer at the Institute for Physical Geography, Chair of Geography and Hydrology at the University of Freiburg, for their help in the editing of the papers. Many figures provided by the authors were revised or redrawn by H.-J.Paul, cartographer at the Chair of Geography and Hydrology, Freiburg. He also designed the cover illustration.

The camera-ready copy for this publication was produced at the IAHS Editorial Office, Institute of Hydrology, Wallingford, Oxfordshire OX10 8BB, UK.

Printed in Great Britain by Galliard (Printers) Ltd, Great Yarmouth.

### REVIEW PAPER

**Operational hydrology in the humid tropical regions**
*World Meteorological Organization*

### 1 HYDROLOGICAL ASPECTS OF TROPICAL CYCLONES

- Crues d'origine dans l'Océan Indien (Madagascar) et le Pacifique Sud (Nouvelle Calédonie et Tahiti)  
  *J.Danloux*  
  29
- Tropical storms in Central America and the Caribbean: characteristic rainfall and forecasting of flash floods  
  *Andres Díaz Arenas*  
  39
- Runoff and flood characteristics in some humid tropical regions  
  *Takeo Kinosita*  
  53
- Rainstorm characteristics affecting water availability for agriculture  
  *J.S.Oguntoyinbo & F.O.Akintola*  
  63

### 2 THE HYDROLOGICAL REGIONS OF THE HUMID TROPICS

- Hydrological characteristics of the Caribbean  
  *Andres Díaz Arenas*  
  75
- Water resources development and management efforts in Asia and in the Pacific  
  *Reynaldo M.Lesaca*  
  85
- Recent trends in aspects of hydroclimatic characteristics in West Africa  
  *Oyediran Ojo*  
  97
- Aspects scientifiques et techniques de l'hydrologie des zones humides de l'Afrique centrale  
  *J.A.Rodier*  
  105
- Rivers of southeast Asia: their regime, utilization and regulation  
  *A.Volker*  
  127

### 3 LAND USE AND HYDROLOGY IN THE HUMID TROPICS

- Interpretation of the sedimentological behaviour of the Tocantins-Araguaia basin  
  *E.A.L.Béquio, W.C.Lou, M.A.Siciliano & O.V.Silveira*  
  141
- Nutrient balance of a central Amazonian rainforest: comparison of natural and man-managed systems  
  *W.F.L.Brandmann*  
  153
Evaluation of runoff sources in a forested basin in a wet monsoonal environment: a combined hydrological and hydrochemical approach  L.A. Bruijnzeel (Swami Prem Sampurno) 165

Soil moisture regimes as affected by silvicultural treatments in humid East Texas  Mingteh Chang, Jennie C. Ting, Kim L. Wong & Ellis V. Hunt Jr 175

On the lack of dependence of losses from flood runoff on soil and cover characteristics  Ian Cordery & David H. Pilgrim 187

Evolution des écoulements, des transports solides à l'exutoire et de l'érosion sur les versants d'un petit bassin après défrichement mécanisé de la forêt tropical humide  Jean-Marie Fritsch 197

Water yield resulting from clearcutting a small hardwood basin in central Taiwan  Y.J. Hsia & C.C. Koh 215

Soil erosion in the humid tropics with particular reference to agricultural land development and soil management  R. Lal 221

Groundwater hydrology in agriculture of the humid tropics  John F. Mink 241

Effects of deforestation on flood characteristics with particular reference to Hainan Island, China  Qian Wangcheng 249

Moisture adequacy in relation to forestry and agricultural land use in the Mahanadi river basin  A.A.L.N. Sarma 259

Selection of soil and water conservation practices for a giant bamboo plantation in Taiwan  Sheng Lewis Liang 265

4 WATER BALANCE AND REGIME

Runoff generation in tropical rainforests of northeast Queensland, Australia, and the implications for land use management  M. Bonell, D.A. Gilmour & D.S. Cassells 287

Evapotranspiration in humid tropical regions  H.A.R. de Bruin 299

Runoff of a tropical high mountain region  Ch. Leibundgut 313

Some aspects of water balance in the tropical monsoon climates of India  V.P. Subrahmanyan 325

5 INADEQUATE DATA AND HYDROLOGICAL MODELS

The meteorological feasibility of windmills for water supply in northern Malawi  David R. Archer 335

Estimation of areal precipitation  A.K. Bagchi 345
Contents

Hydrological studies of the Irrawaddy Delta
J.S.A. Brichieri-Colombi 353

Recent hydrological and climatological activities in the
Amazon basin, Brazil  Václav Eliás &
Antonio Jorge Serrano Cavalcante 365

The effects of meteorological inputs on the variability of
runoff with time  S. Jovanović, M. Jovanović & Z. Radić 375

A dynamic model for determination of soil moisture budget
and its applications  H.-B. Kleeberg &
G. Koplitz-Weissgerber 387

Optimal flood control policy based on imperfect forecasts
Arun Kumar & Rema Devi 397

Hydrological computation for water resources development
within Imo River basin, Nigeria  Samuel Chukwudi Ojukwu 409

River flow forecasting through a regression model: a case
study of the Basement Complex of western Nigeria
E.S. Oyegoke, E.'D. Ige & L. Oyebande 419

Synthetic streamflow sequences for some West African rivers
E.S. Oyegoke, O.T. Talabi, O.K. Morohunfola & L. Oyebande 427

Simulating flood hydrographs from storm rainfalls in
Venezuela  Ricardo R. Ponte Ramirez & Elizabeth M. Shaw 435

Hydrological computations for water resources development
with inadequate data  J.A. Rodier 447

The slanting hole raingauge proposed for hillslope
hydrology  Yung-Cheh Chiang & Sheng Lewis Liang 459
