Proceedings of an international symposium held during the XIXth General Assembly of the International Union of Geodesy and Geophysics at Vancouver, British Columbia, Canada, 9-22 August 1987. The symposium was organized by the IAHS International Commissions on Surface Water, on Groundwater, and on Water Resources Systems; and sponsored by the World Meteorological Organization and the Atmospheric Environment Service, Canada, and UNESCO

Preface  S.I. Solomon & M. Beran

1 DEFINITION OF CLIMATE CHANGE AND CLIMATE VARIABILITY IN HYDROLOGY

Runoff variability: A global perspective  T.A. McMahon, B.L. Finlayson, A. Haines & R. Srikantan  3

Variation des débits des cours d'eau et des niveaux des lacs en Afrique de l'ouest depuis le début du 20ème siècle  Jacques H.A. Sircoulon  13

An analysis of the variation trend of the annual runoff on the northern slope of Qilian Shan  Lai Zuming  27

Rainfall trends in West Africa, 1901-1985  Oyediram Ojo  37

Some effects of climate variability on hydrology in western North America  D.H. Peterson, D.R. Cayan, J. Dileo-Stevens & T.G. Ross  45

Evaluation of runoff changes in the Labe River basin by simulating the precipitation-runoff process  Josef Buchtele & Martin Zemlicka  63

Climatic fluctuations and runoff from glacierised Alpine basins  David N. Collins  77

Spatial and temporal variability of rainfall and potential evaporation in Tunisia  Ronny Berndtsson  91

The climatology of dry and wet periods over western Canada in a general circulation model  Neil E. Sargent  101

2 CLIMATE CHANGE PROXY DATA

Paleohydrologic studies using proxy data and observations  H.J. Liebscher (keynote paper)  111

Paleoflood hydrology and hydroclimatic change  Victor R. Baker  123

Variability in periodicities exhibited by tree ring data  A. Ramachandra Rao & A. Durgunoglu  133

Paleorecharge, climatohydrologic variability, and water-resource management  William J. Stone  143

Lake ice formation and breakup as an indicator of climate change: potential for monitoring using remote sensing techniques  J.A. Maslanik & R.G. Barry  153
Contents

Mass balance of North Cascade Glaciers and climatic implications  
*Mauri S. Pelto*  
163

Quantification of long term trends in atmospheric pollution and agricultural eutrophication: A lake-watershed approach  
*Ian D.L. Foster & John A. Dearing*  
173

Critical precipitation conditions for landslide and tree ring responses in the Rokko Mountains, Kyoto, Japan  
*Kenji Kashiwaya, Takashi Okimura & Takeshi Kawatani*  
191

3 CLIMATIC VARIABILITY AND STOCHASTIC HYDROLOGY

The role of stochastic hydrology in dealing with climatic variability  
*Marshall E. Moss & Gary D. Tasker* (keynote paper)  
201

Long water balance time series in the upper basins of four important rivers in Europe – indicators for climatic changes?  
*Bruno Schädler*  
209

Analysis of patterns in a precipitation time sequence by ordinary Kalman filter and adaptive Kalman filter  
*Akira Kawamura, Kenji Jinno, Toshihiko Ueda & Reynaldo Real Medina*  
221

The identification of recent rainfall fluctuations in the Philippines  
*Reynaldo Real Medina, Kenji Jinno, Toshihiko Ueda & Akira Kawamura*  
233

Consistent parameter estimation in a family of long-memory time series models  
*A. Ramachandra Rao & Gwo-Hsing Yu*  
245

Temporal disaggregation of monthly rainfall data for water balance modelling  
*Thomas W. Giambelluca & Delwyn S. Oki*  
255

Space-time modelling of rainfall-runoff process  
*Kaz Adamowski, Fadil B. Mohamed & Nicolas R. Dalezios*  
269

Fourier-ARIMA modelling of the multiannual flow variation  
*I. Haidu, P. Serbrn & M. Simota*  
281

Modélisation d'un processus non-stationnaire – Application à la pluviométrie en zone semi-aride  
*A. Musy & P. Meylan*  
287

Bayesian forecasting of hydrologic variables under changing climatology  
*Lucien Duckstein, Bernard Bobee & Istvan Bogardi*  
301

4 CLIMATIC CHANGE AND RIVER BASIN CHARACTERISTICS

Impact of climate change on the morphology of river basins  
*F. H. Verhooog* (keynote paper)  
315

The impacts of alternating flood- and drought-dominated regimes on channel morphology at Penrith, New South Wales, Australia  
*Robin F. Warner*  
327
Is the largest North American sub-arctic sand dune disappearing? *Jeff Whiting & Elaine Wheaton* 339

Sécheresse, désertification et ressources en eau de surface - Application aux petits bassins du Burkina Faso *Jean Albergel* 355

The glacial and hydrological regime under climatic influence in the Urümqi River, north China *Yao Tandong* 367

A primary study of the relationship between glacial mass balance and climate in the Qilian Mountain taking "July First" Glacier as an example *Xie Zichu & Liu Chaohai* 379

Global climatic changes and regional hydrology: impacts and responses *Peter H.Gleick* 389

The impacts of CO₂-induced climate change on hydro-electric generation potential in the James Bay Territory of Quebec *Bhawan Singh* 403

5 CLIMATIC CHANGE AND WATER RESOURCES SYSTEMS

Climate change and water resources *A.J.Askew* (keynote paper) 421

Macroscale hydrologic models in support to climate research *Alfred Becker & Jarmir Nemec* 431

Variabilité spatiale et temporelle des bilans hydriques de quelques bassins versants d'Afrique de l'ouest en liaison avec les changements climatiques *Bernard Pouyaud* 447

Historical variations in African water resources *J.V.Sutcliffe & D.G.Knott* 463

Climatic change and Great Lakes water levels *M.Sanderson & L.Wong* 477

Sensitivity of water resources in the Great Lakes region to changes in temperature, precipitation, humidity, and wind speed *Stewart J.Cohen* 489

Les conséquences durables de la sécheresse actuelle sur l'écoulement du fleuve Sénégal et l'hypersalinisation de la Basse-Casamance *J.C.Olivry* 501

Effect of climate changes on the precipitation patterns and isotopic composition of water in a climate transition zone: Case of the Eastern Mediterranean Sea area *Joel R.Gat & Israel Carmi* 513

Climatic variability and regolith groundwater regime in southwestern Nigeria *E.O.Omorinbola* 525

Long-term changes in water quality parameters of a shallow eutrophic lake and their relations to meteorologic and hydrologic elements *H.Behrendt, R.Stellmacher & M.Olberg* 535

Hydrologic design criteria and climate variability *Robert A.Clark* 545
6 MAN'S INFLUENCE ON THE HYDROLOGIC REGIME

Influences possibles activités humaines modifiant le climat sur le cycle hydrologique  Andre Junod (keynote abstract)  555

A methodology for distinguishing between the effects of human influence and climate variability on the hydrologic cycle  Jens Chr.Refsgaard  557

The impact of increasing atmospheric carbon dioxide concentrations upon reservoir water quality  B.Henderson-Sellers  557

Who is to blame for the desertification of the Negav, Israel?  A.Issar & H.Tsoar  577

Some possible impacts of greenhouse gas induced climatic change on water resources in England and Wales   J.P.Palutikof  585

Detection of natural and artificial causes of groundwater fluctuations   Frans C.Van Geer & Peter R.Defize  597

Hydrologic response to an artificial climatic change of rainfall enhancement   Arie Ben-Zvi & Margarita Langerman  607

Will clouds provide a negative feedback in a CO$_2$-warmed world?  K.McGuffie & A.Henderson-Sellers  619
